EREADER/ENOTE SERIES

Harmo series arevarious types of eReaders or tablets made of black and white E ink display modules of different sizes, which support reading, handwriting and other functions. The E ink display modules have the advantage of ultra-low power consumption, and it can be used for several weeks on a single charge; it does not hurt the eyes, will not cause eye discomfort when used for a long time; its own non-luminous feature ensures that it can be read normally under strong light.

Some products in the Harmo series can be equipped with an open Android system, supports the installation of various apps in the app store to realize reading and office functions, and downloads e-books through WIFI or 4G. Some products are also equipped with an electromagnetic pen, which can be recorded and saved at any time. Harmo series products provide a very practical tool for business people and those who love to read.

- With high-resolution display for sharp text and images.
- Read comfortably with a glare-free, paper-like display.
- Tune out of messages, e-mails and social media with a distraction-free device made specifically for reading.
- Static display doesn't consume power—a single charge via USB C lasts up to several weeks.

Like writing on paper

4096-level WACOM electromagnetic pressure-sensitive stylus allows you to draw very precisely. Neither wires nor batteries are needed, allowing flexible and accurate writing. Displays instantly on the surface of an Eink display, providing a paper-like experience.

Visible in sunlight

E-paper is a glare-free display screen that displays images by reflecting ambient light, and the content on the screen can be clearly seen even under strong sunlight.

Portable library

Has a large memory space and can download many e-books through WiFi or 4G network. It is an electronic library.
